

"What Makes 'Em Tick and What Ticks 'Em Off!"

A program specifically designed for . . .

Executive & Leadership Teams ~ Sales & Customer Support Professionals ~
HR/Recruiting Professionals ~ Operations & Cross Functional Teams

Lift Sales, Profits, Morale, and Loyalty Through Rapport and Mindset

In this high energy, content rich, interactive program, Will Matthews provides your team with tools and knowledge to create immediate, positive results within teams and with customers.

Offered as 2 hour or 3 hour sessions

Participants will learn how to:

- Lead the market in both sales and recruiting. Know what creates "Go/No Go" decisions with customers and potential new hires.
- Improve your customer's experience. People do more business with people that they relate to, period!
- Decrease employee turnover. Exit surveys show that the # 1 reason employees leave is they don't feel a bond.
- Reduce poor performance and absenteeism. Employees that have a strong connection to their manager and team are more engaged and miss fewer workdays.
- Increase return to shareholders. Strong teams equipped with powerful communications skills produce and innovate more.

BONUS:

Increase Executive/Professional Presence

Confidence and impact are improved when mental and emotional state are maximized. Those attending the three hour (half day) training will also experience a powerful three-step model for mastering their mental and emotional state so that they can **deliver their "A" Game on demand** at any time instead of just hoping that the "A" Game shows up when they most need it.

Why?

Because it takes the "A" Game to:

- ◆ Deliver excellent presentations
- ◆ Lead with precision
- ◆ Get more business deals done

"Will Matthews is going to impact your future, your life and your fortune."
